EDUCATION

Lebanese University - Faculty of Engineering   Roumieh, Lebanon
Computer and Communications Engineer   *Sept. 2019 – June 2024*

Delf
B2   *Sept. 2021*

PERSONAL PROJECTS

Reactivities | *.NET Core, SignalR, Cloudinary, React, MobX, PostreSQL, fly.io*   August – September 2023
- Developed a full-stack web application serving a REST API using modern .NET 7.0, PostgreSQL, and React 18.0
- Implemented JWT with Refresh Tokens
- Implemented full Authentication and Authorization
- Implemented full CRUD functionality with real-time chatting with SignalR

EXPERIENCE

BtekUp | *Intern FullStack Developer*   November 2021 – May 2022
- Developed new features for a real estate and an e-commerce websites
- Developed the frontend logic using ReactJS and Angular with technologies including Redux, RxJS, MaterialUI and Angular Material
- Developed REST APIs using NodeJS to manipulate data (MongoDB, Mongoose, SocketIO)
- Provided support and maintenance for the application
- Resolved system test and validation problems to provide normal program functioning

Globalistic Tech | *Junior FullStack Developer*   September 2022 – Present
- Developed new features for a B2B full-stack web application with Angular
- Developed REST APIs using NodeJS and HapiJS to manipulate data (PostgreSQL, Sequelize)
- Oversaw back-end development to maintain website integrity, security and efficiency
- Provided support and maintenance for the application
- Resolved system test and validation problems to provide normal program functioning

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, Bootstrap, React, React Native (working knowledge), Flutter(working knowledge), MobX, Angular, Angular Material, Material UI, NextJS (working knowledge)
Backend: NodeJS, .NET Core, NPM, Express, HapiJS, RestAPI, MSSQL, MongoDB, PostgreSQL, MySQL, Sequelize, SocketIO, WebRTC, Joi, , signalR, Cloudinary, Firebase
Others: Git, GitHub, C#, C++, Java, Python (working knowledge), Linux, Wrike, Microsoft Azure, DigitalOcean

SOFT SKILLS

- Time/Task Management
- Analytical Thinking
- Working Under Pressure
- Eager and fast learner

COURSES

Complete guide to building an app with .Net Core and React
34.5 hours on-demand video   *www.udemy.com*

The Web Developer Bootcamp 2022
63.5 hours on-demand video   *www.udemy.com*

The Modern React Bootcamp (Hooks, Context, NextJS, Router)
39 hours on-demand video   *www.udemy.com*
